TK-590-100

Product Information Statement for LEED New Construction (NC) Version 2.2 Credit Documentation

TRI-SILANE is a single-component, penetrating, alkylalkoxysilane waterproofing treatment for concrete. It protects concrete from deterioration caused by intrusion of water and waterborne salts. TRI-SILANE meets the following standards: NCHRP 244 Chloride Ion Intrusion, ASTM 672 Freeze thaw and Water absorption, AASHTO T260 Chloride Ion Penetration.

TK Product Material Management Systems certifies the following information for TK-590-100:

Regional Materials

30% by weight of TK-590-100 was produced with regionally extracted and processed materials; and Manufactured in Minnetonka, MN

Recycled Content

TK-590-100 is manufactured with 6% combined recycled content

VOC Content

TK Product Material Management Systems Certifies that the VOC (volatile organic content) of TK-590-100 248g/l

Based upon the above information, TK Product Material Management Systems certifies that TK-590-100 could contribute to the following LEED NC v2.2 Credits:

MR Credits 4.1 & 4.2: Recycled Content: 10% & 20% (post-consumer + ½ pre-consumer)
MR Credits 5.1 & 5.2: Regional Materials: 10% & 20% Extracted, Processed, & Manufactured Regionally

Respectfully,
